

# Worldwide Digital Transformation Strategies

AN IDC SPECIAL INTELLIGENCE SERVICE

Digital transformation (DX) is at the center of modern organizational strategies. IDC estimates the economic value of DX to almost \$19 trillion, or more than 20% of global GDP. This program looks at how companies are transforming decision making with technology with speed, scale, and agility, creating sustainable performance excellence in the digital economy.

IDC's Industry-leading DX Taxonomy provides structured guidance for 18 distinct industry and government verticals that are creating and enabling digital transformation success capabilities in the digital economy through a four-tiered model. These industries are supported across 18 digital missions, almost 80 strategic priorities, over 200 programs, and in excess of 700 business outcome-oriented specific use cases (business and IT-enabled digital projects), plus another 170 back-office and administrative operations use cases covering 8 functional areas.

*Worldwide Digital Transformation Strategies* program benchmarks the maturity of enterprise transformation efforts, identifies organizational impact, provides guidance on building new capabilities, and prioritizes investment options. This program is also fully supported and aligned by IDC Digital Transformation Strategies Spending Guide that enables quantitative analysis of investment by industry, technology, and use case taxonomy framework.

---

## Markets and Subjects Analyzed

- Overall maturity of digital transformation in the industry
- Approaches that deliver new levels of relationship mastery
- Capabilities that enable operating model transformation
- Strategies for monetizing information
- Architectural constructs that will define spending
- The impact of 3rd Platform technologies and associated accelerators
- How to move from being digitally distraught to being digitally determined through digital strategies
- How to build a long-term digital road map through use cases
- The requirement that demonstrates the inherent value that digital has on the business
- The growing mandate for a platform to scale digital initiatives

---
